THE

# Mineralogical Magazine

AND

# JOURNAL

OF THE

# MINERALOGICAL SOCIETY

(Instituted February 3, 1876)

Edited by L. J. SPENCER, F.R.S.

*ASSISTED BY A COMMITTEE OF COUNCIL*

VOLUME XXII

(Nos. 124–135, 1929–1931)

LONDON

HUMPHREY MILFORD, OXFORD UNIVERSITY PRESS,

Amen House, Warwick Square, E.C. 4.

1931

PRINTED IN GREAT BRITAIN AT THE UNIVERSITY PRESS, OXFORD
BY JOHN JOHNSON, PRINTER TO THE UNIVERSITY

# TABLE OF CONTENTS [1]

[No. 124. MARCH, 1929.]

PAGE

Bye-Laws and List of Members . . . . . vii

Proceedings of the Mineralogical Society . . . . . xxvii

A. Holmes and H. F. Harwood: The tholeiite dikes of the north of England. (With Plates I and II) . . . . . 1

F. A. Bannister: The so-called 'thermokalite' and the existence of sodium bicarbonate as a mineral . . . . . 53

W. A. Wooster: An investigation into the piezo-electric effect of diamond . . . . . 65

A. F. Hallimond: On the atomic volume relations in certain isomorphous series . . . . . 70

[No. 125. JUNE, 1929.]

C. E. Tilley: On larnite (calcium orthosilicate, a new mineral) and its associated minerals from the limestone contact-zone of Scawt Hill, Co. Antrim . . . . . 77

T. V. M. Rao: 'Bauxite' from Kashmir . . . . . 87

A. W. Groves and A. E. Mourant: Inclusions in the apatites of some igneous rocks . . . . . 92

S. I. Tomkieff: A contribution to the petrology of the Whin Sill. (With Plates III and IV) . . . . . 100

[No. 126. SEPTEMBER, 1929.]

L. A. N. Iyer: A study of the calc-gneisses, scapolite-gneisses, and cordierite-garnet-sillimanite-rocks of Coimbatore, Madras Presidency; with comparison to other similar occurrences in India. (With Plate V) . . . . . 121

F. A. Bannister: A relation between the density and refractive index of silicate glasses, with application to the determination of imitation gem-stones . . . . . 136

G. T. Prior: The meteoric stone of Lake Brown, Western Australia . 155

A. Russell: On the occurrence of native gold at Hope's Nose, Torquay, Devonshire. (With Plate VI) . . . . . 159

[No. 127. DECEMBER, 1929.]

L. Hawkes: On a partially fused quartz-felspar-rock and on glomero-granular texture. (With Plate VII) . . . . . 163

P. Marshall: The occurrence of a mineral hitherto unrecognized in the phonolites of Dunedin, New Zealand. (With Plate VIII) . 174

I. de Finály and S. Koch: Fülöppite, a new Hungarian mineral of the plagionite-semseyite group . . . . . 179

E. J. Wayland and L. J. Spencer: Bismutotantalite, a new mineral, from Uganda . . . . . 185

M. H. Hey: The variation of optical properties with chemical composition in the rhodonite-bustamite series . . . . . 193

[1] The separately-paged Mineralogical Abstracts issued with each part form a separate volume.

[No. 128. MARCH, 1930.]

PAGE

Proceedings of the Mineralogical Society . . . . . xxxvii

L. T. Nel: A new occurrence of zunyite near Postmasburg, South Africa. (With Plate IX.) With a note on the crystallography by L. J. Spencer . . . . . 207

C. E. Tilley: Scawtite, a new mineral from Scawt Hill, Co. Antrim. With a chemical analysis by M. H. Hey . . . . . 222

F. C. Phillips: Pericline and acline-A twins in the acid plagioclases 225

Sir Douglas Mawson: The occurrence of potassium nitrate near Goyder's Pass, McDonnell Ranges, Central Australia . . 231

[No. 129. JUNE, 1930.]

F. C. Phillips: Some mineralogical and chemical changes induced by progressive metamorphism in the Green Bed group of the Scottish Dalradian. (With Plate X) . . . . . 239

J. M. Sweet: Notes on British barytes . . . . . 257

L. J. Spencer: A new meteoric iron from Piedade do Bagre, Minas Geraes, Brazil. With a chemical analysis by M. H. Hey. (With Plates XI and XII) . . . . . 271

M. H. Hey: On face- and zone-symbols referred to hexagonal axes . 283

[No. 130. SEPTEMBER, 1930.]

E. Spencer: A contribution to the study of moonstone from Ceylon and other areas and of the stability-relations of the alkali-felspars. (With Plates XIII–XV) . . . . . 291

F. Walker: A tholeiitic phase of the quartz-dolerite magma of central Scotland. (With Plate XVI) . . . . . 368

A. F. Hallimond: An electromagnetic separator for mineral powders 377

J. Young: On the orientation of kamacite in meteoric iron . . 382

[No. 131. DECEMBER, 1930.]

L. J. Spencer: Biographical notices of mineralogists recently deceased. (Fourth series) . . . . . 387

M. H. Hey: Cupriferous melanterite from Skouriotissa mine, Cyprus . 413

F. Smithson: A simple method of observing the magnetic properties of mineral grains. . . . . 419

M. H. Hey: Studies on the zeolites. Part I. General review . . 422

[No. 132. MARCH, 1931.]

PAGE
Proceedings of the Mineralogical Society . . . . . xlix

C. E. Tilley and H. F. Harwood: The dolerite-chalk contact of Scawt Hill, Co. Antrim. The production of basic alkali-rocks by the assimilation of limestone by basaltic magma. (With Plates XVII and XVIII) . . . . . 439

F. A. Bannister: The distinction of analcime from leucite in rocks by X-ray methods . . . . . 469

H. V. Warren: An occurrence of grunerite at Pierrefitte, Hautes-Pyrénées, France . . . . . 477

F. C. Phillips: Ephesite (soda-margarite) from the Postmasburg district, South Africa . . . . . 482

[No. 133. JUNE, 1931.]

D. R. Grantham and F. Oates: The Mbosi meteoric iron, Tanganyika Territory. (With Plates XIX and XX.) With notes on the structure by L. J. Spencer . . . . . 487

S. R. Nockolds: The Dhoon (Isle of Man) granite: a study in contamination . . . . . 494

M. H. Hey: On pink epsomites and fauserite . . . . . 510

A. J. P. Martin: On a new method of detecting pyro-electricity . 519

A. G. MacGregor: Clouded felspars and thermal metamorphism . 524

[No. 134. SEPTEMBER, 1931.]

C. N. Fenner: The residual liquids of crystallizing magmas . . 539

T. Ichimura: Notes on brown hornblende and biotite from Shabō-zan, of the Daiton volcanoes, Taiwan, Japan . . . . . 561

F. A. Bannister: A chemical, optical, and X-ray study of nepheline and kaliophilite. With chemical analyses by M. H. Hey. (With Plates XXI and XXII) . . . . . 569

G. E. L. Carter: An occurrence of vanadiferous nodules in the Permian beds of South Devon . . . . . 609

L. J. Spencer: Twelfth list of new mineral names . . . . . 614

[No. 135. DECEMBER, 1931.]

Title-page and Contents.

Index, Errata and Addenda . . . . . 633

## DESCRIPTION OF PLATES

| | | PAGE |
|---|---|---|
| Plate I. | Tholeiite dikes of the north of England (A. Holmes and | |
| „ II. | H. F. Harwood) . . . . . | 52 |
| „ III. | The Whin Sill (S. I. Tomkeieff) . . . . . | 120 |
| „ IV. | | |
| „ V. | Gneisses from Coimbatore (L. A. N. Iyer) . . . | 135 |
| „ VI. | Native Gold from Torquay, Devonshire (A. Russell) . | 162 |
| „ VII. | Partially fused granite (L. Hawkes) . . . . . | 173 |
| „ VIII. | Ameletite in phonolite from Dunedin, New Zealand (P. Marshall) . . . . . | 178 |
| „ IX. | Zunyite from Postmasburg, South Africa (L. T. Nel) . | 221 |
| „ X. | Green Beds of the Scottish Dalradian (F. C. Phillips) . | 256 |
| „ XI. | Meteoric iron of Piedade do Bagre, Minas Geraes, Brazil | |
| „ XII. | (L. J. Spencer) . . . . . | 282 |
| „ XIII. | | |
| „ XIV. | Moonstone from Ceylon (E. Spencer) . . . . | 366 |
| „ XV. | | |
| „ XVI. | Tholeiites from central Scotland (F. Walker) . . . | 376 |
| „ XVII. | Dolerite-chalk contact of Scawt Hill (C. E. Tilley and | |
| „ XVIII. | H. F. Harwood) . . . . . | 467 |
| „ XIX. | The Mbosi meteoric iron (D. R. Grantham and F. Oates) | 493 |
| „ XX. | | |
| „ XXI. | X-ray photographs of nepheline and kaliophilite (F. A. | |
| „ XXII. | Bannister) . . . . . | 608 |
